PROFESSIONAL SUMMARY

Final-year Computer Science student with hands-on experience building full-stack web applications using the MERN stack. Experienced in developing responsive React interfaces, Node.js and Express.js backends, REST APIs, authentication systems, database-driven applications, and third-party API integrations. Strong problem-solving foundation with 300+ DSA problems solved and working knowledge of modern AI technologies including LLMs and RAG.

EXPERIENCE

Software Development Engineer Intern (MERN Stack) – Botervue System *Feb 2026 – May 2026*

- Built features for a TOEFL preparation platform serving **150+ users**, including interactive dashboards and question-bank workflows.
- Developed **Mock Test and Result REST APIs**, reducing manual evaluation time by **40%**.
- Worked across frontend and backend workflows involving **Firebase authentication, JWT routing, API integration, and platform stability**.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Framer Motion

Backend: Node.js, Express.js, REST APIs, GraphQL, JWT Authentication

Database: MongoDB, Firebase, MySQL

State & Libraries: Redux, React Query, Axios, Chart.js

AI: LLMs, RAG, LangChain, LangGraph, OpenAI API, Prompt Engineering

Tools: Git, GitHub, Docker, Postman, Vercel, Render, Netlify

PROJECTS

CodeTracker | *React, Node.js, GraphQL, Chart.js* **[Link]**

- Built a **full-stack coding progress dashboard** aggregating data from **5 competitive programming platforms**.
- Developed backend API workflows and a **GraphQL-based data aggregation pipeline** for collecting and processing coding statistics.
- Designed responsive dashboards with **React and Chart.js** to visualize coding progress and performance.

SkillGapAnalysis | *MERN, Firebase, NLP* **[Link]**

- Built a **MERN-based resume analysis application** using TF-IDF and pattern matching for technical skill extraction.
- Implemented **cosine similarity and Jaccard index** to compare resumes with job descriptions and identify skill gaps.
- Integrated **Firebase authentication** and developed user workflows for resume analysis and skill tracking.

AI Mock Interview Platform | *OpenAI API, MERN, Tailwind* **[Link]**

- Developed a **full-stack AI interview platform** integrating OpenAI API for dynamic question generation and response analysis.
- Implemented **role-based quizzes, authentication, and performance analysis** for personalized interview practice.

EDUCATION

Delhi Technical Campus (GGSIPU), Greater Noida, UP 2023–2027
B.Tech in Computer Science and Engineering • **CGPA: 9.18**

DAV Model School 2021–2023
Higher Secondary (**90%**) • Secondary (**97.4%**)

ACHIEVEMENTS

- Solved **300+ DSA problems** across LeetCode and GeeksforGeeks.
- **Smart India Hackathon Participant** – Developed "Constitution in a Simple Way" project.
- **Hacktoberfest Contributor** – Completed 4 validated PRs in React/Node.js.
- Built an **AI advertisement portfolio** using Google Flow and prompt engineering.
